BREEDING FEMALES - 302

BREEDING RAMS - 118

The second sale on behalf of Innovis at Hereford was met with a larger crowd than 2018, although the females were very selective and it was apparent that the demand at this sale was for the rams.

FEMALE SALE

The female sale included runs of Aberfield x Lley, $\frac{3}{4}$ Aberfield x, Highlander and Highlander x yearlings. The female section topped at £132 for Aberfield x Lley; other Aberfield x selling from £117 to £130 and meeting good demand. Highlander x ewes were more selective with the strongest sorts to £122, smaller types remained unsold.

RAM SALE

The ram sale included an excellent entry of Aberfield, Abertex, Abermax, Aberblack and Primera. The rams in general were in better condition than 2018 and gave an excellent benchmark for Innovis.

A good crowd of purchasers were in attendance from a wide area with a good Welsh contingent making the journey to Hereford.

The rams met a very good clearance rate with the demand for the terminal sires such as the Aberblack and Abermax very evident.

The rams topped at £1050 for an Aberblack, part of an excellent consignment. Other Aberblack rams to £1000, with several £850 to £980 and creating the most interest on the day. Smaller sorts from £700 to £800 but nearly a complete clearance of Aberblack rams.

Continued over page.

Abermax rams topped at £950, with the other top Abermax rams all trading from £800 to £900. Others then from £700 to £800 with a very good clearance.

Aberfield rams to £850 for yearlings with 2 year olds to £780, the top end of the Aberfield rams £750 to £850 with other Aberfield rams from £650 to £750. A good clearance again with the rams with the top figures in keenest demand with purchasers.

Primera rams to £820 with others from £600 to £650. Highlander rams to £650 with both the Primera and Highlander rams meeting a more selective audience.

Abertex rams to £920, other top performing Abertex from £700 to £800, but like the Highlander and Primera a more selective trade.

Overall the sale was a good success with the demand evident for the terminal ram sires more so than the maternal sires.

We have a second sale for rams, breeding ewes and ewe lambs on Wednesday 25th September.
